

Exterior Door systems you can *trust*

IMPACT CATALOG VOLUME 9

BHIDoors
BY BUILDERS HARDWARE, INC.

bhiflorida.com

Quality components create the *total package*.

BHI Doors is a collection of best-in-class components (doors, doorglass, frames, astragals, weather seals, thresholds, locksets, and hardware) used to create entry systems with enduring good looks and superior performance. The majority of our door systems are tested to the HVHZ (High Velocity Hurricane Zone) standards, the most stringent hurricane codes ANYWHERE in the United States. Most all of the BHI Door systems meet the minimum Florida Energy code.

Great craftsmanship, beautiful glass patterns, multiple finish hardware options, superior construction, and energy-saving features all come together in a wide range of entry systems that enhance the value of your home and add beauty to everyday living.

BHI Doors Commitment

All products featured are in stock ready to be built unless marked special order.

Unless otherwise noted, all products featured can be built into door systems that are compliant with hurricane structural, hurricane impact and the latest energy codes.

BHI Doors continues our commitment to service excellence as we bring enduring beauty and value to exterior doors throughout Florida. – established in 1954.

THRESHOLDS & ASTRAGALS

For additional security and weather protection our systems use DLP thresholds and astragals.

ETCHED GLASS

An unique line of doorglass inserts styled for Florida living. Traditional sandblasting is used to etch clear glass with a variety of nature and obscure designs.

STEEL DOORS

Advanced manufacturing techniques, modern designs, and pre-finished options. Affordable, stylish, and available in many colors.

TRILENNIUM™

MULTI-POINT LOCKS

The ultimate fiberglass door security system. Multiple latches and bolts guard against forced entry and create additional weather sealing.

RESIDENTIAL LOCKSETS

Superior functionality, easy installation, and secure performance.

BHI Hinges

Specially designed for high-performance and tested for long lasting endurance.

Add beauty to and increase the value of your home with ODL's innovative line of doorglass.

FIBERGLASS DOORS AND PF FRAMES™

A lifetime of exceptional durability and performance for every door around your home.

CUSTOM GLASS

Custom glass for doors, sidelights, windows and transoms.

VENTILATING DOORS

Let in the breeze without compromising security with an optional window insert in your door (with a security screen).

BHI Weather-seals

Keep cool air in and keep bugs out while benefiting from improved energy efficiency.

OVERLAY ART LAMINATE

Endless changeable options of patent pending premium overlay art glass laminate.

Every component in the BHI System is backed by the manufacturer's warranty. For specific warranty information please see our resources page at BHIFlorida.com.

See impact testing video.

BHI quotes and order acknowledgments list the product approvals needed for each pre-hung door system. For additional code approvals and specific design pressure ratings, please see pages 168-171.

Some doors are approved for HVHZ for in-swing application but may have overhang requirements. Some systems with very high design pressure ratings may require surface bolts, and/or dead bolt security strikes.

BHI does not warrant the suitability of any product for any specific use. For additional code information, contact a BHI representative, speak with a local plans examiner's office, or contact a contractor or engineer.

SELECTION OVERVIEW HURRICANE COMPLIANCE

Doors made to withstand high pressure

Our expertise in Florida and High Velocity Hurricane Zone (HVHZ) building codes means you can trust **BHI Doors** systems to comply with the unique requirements needed for hurricane code compliance.

Impact units have structural ratings and may be used in the HVHZ and/or WBD impact zones without shutters required.

ENERGY COMPLIANCE

BHI and our suppliers of major fenestration components have made it a joint effort to focus on compliance with the Florida Building Code - 5th Edition Energy Conservation.

Groups of products that meet the minimum energy standards for both solar heat gain coefficient (SHGC) and U-Factor in both climate zones will display this logo at the top of the page.

Individual products that DO NOT meet the minimum Energy standards will display this logo.

DRS00 686/687/624GBG 10L SLS00 694GBG 5L DRS00 686/687/624GBG 10L SLS00 694GBG 5L

ENERGY CODE EXEMPTIONS

There are also exemptions for products that DO NOT meet the energy standards.

The Prescriptive method of compliance allows one glazed fenestration per dwelling unit of up to 15 square feet "of glazed fenestration" to be exempt from the U-factor and SHGC requirements R402.1.(1), and also one side hinged opaque door assembly up to 24 square feet to be exempt from U-factors (Section R402.1.(.3 & .4)). If using this exemption, doors bearing this mark may be used as single door units. Other exemptions for doors bearing this mark may be used when using whole house energy engineering compliance method.

Florida Energy Efficiency Requirements

ENERGY LABELING

Labels will reference specific numbers listed in the certified products directory (CPD) of the National Fenestration Rating Council (NFRC). The CPD numbers shown are also listed with BHI's third-party quality assurance provider, National Accreditation Management Institute (NAMI) for thermal quality assurance compliance.

BHI doors that meet the Energy Standards will have at least 2 Energy Performance labels.

- One permanent label attached to the hinge side of the door slab.
- One temporary label which will be attached to the face of the door.

STRUCTURAL CERTIFICATION LABELING

Builders Hardware inc.
Plastpro/Nanya Plastic FL# 15210.4
MANUFACTURER STIPULATES CONFORMANCE TO:
TAS 201,202,203 - ASTM E48 NOA 17-0712.05/16-0314.11
DP RATING +75-75 PSF 1/8", 1/2", 1" GLAZED UNIT IN/OUT
MAX TEST SIZE 3/0 X 6/8 X
FL CERT # 1773 ANSI # 0651

Some door unit sizes and configurations may require specific design pressure ratings. For these units, labels will be applied with specific stipulations that conform to varying codes within the State.

BHI does not warrant the suitability of any product for any specific use. For additional code information, contact a BHI representative, speak with a local plans examiner's office, or contact a contractor or engineer.

BHI and its suppliers of major components are Energy Star Partners.
Energy Star Certified products are available upon request.

SELECTION OVERVIEW STANDARD FEATURES

ALL SMOOTH SKIN DOOR SYSTEMS INCLUDE:

- White fiberglass doors
- Smooth white 4 9/16" composite door frames
- White powder coat aluminum T-astragal (Double Doors)
- White weather-strip
- Inswing or outswing threshold mill finish
- Stainless steel security hinges

CONTEMPORARY STYLE

Mistify

Mistify is a playful combination of pattern and texture. The black drizzle pattern is fused to softly textured glass, resulting in a mesmerizing statement piece for any modern entryway. This contemporary doorglass design can be special ordered with black grilles between glass.

Privacy Rating 6

NEW!

CONTEMPORARY STYLE

salix

We combined contemporary lines with organic shapes, paired with accents of color to create a multi-dimensional design that is timeless yet on trend.

Premium overlay art glass laminate

TEXTURED SERIES
NATURE SERIES

Vetrilite is a patent pending premium overlay art glass laminate that is applied over one light Low-E glass.

Overlay laminates are very durable – scratch and UV resistant, but can be removed for decor change.

Custom designs:

- Non-trademarked logos
- Street addresses
- Numbers and names
- Modification of existing designs
- Create your own design from a photo or drawing

FLAT PROFILE FRAME (IMPACT GLASS)

Ventilating Doors

This product by DLP Industries is an operational window insert/door combo. When the window is open, fresh air is introduced into the home, eliminating the need for a screen door.

- Perfect for beach side residential dwellings
- Excellent for condominium doors, patio doors, cabana bath doors, and side garage doors
- Replaces old jalousie style doors
- Comes with standard screen
- Manufactured in Florida
- Different glass options

COMPONENTS & HARDWARE ASTRAGALS

DLP - PRESSRITE, INC.
Aluminum Astragals

Florida building code testing results show our Aluminum exterior door T-astragals to be among the top performers in structural testing, and weather resistance.

Available in White, Bronze or Stainable in 6/8, 7/0 and 8/0 sizes

Adjustability

4-way adjustable (horizontal and vertical) strike latch plates

Security

Flip lever locks

Precision

Slide bolt with machined center punch allows for precise bolt location and ease of installation.

Stainable

Add an Astragal Security Strip to any outswing double door combination for added security, a clean finished appearance, and eliminate the reveal between the doors.

COMPONENTS & HARDWARE THRESHOLDS AND WEATHERSTRIP

DLP - PRESSRITE, INC.
Aluminum Thresholds

The first step to protecting your home's interior from insects and inclement weather is including a DLP threshold. Available for inswing, outswing and handicap accessibility doors. Available as Bronze or Mill Finish.

Sizes: 4 9/16, (extenders for 5 1/4, 6 9/16, 7 1/4)

SPECIFICATIONS TRANSOMS, WINDOWS AND DIRECT SET SIDELIGHTS

Impact rated transoms, windows and direct set sidelights are built and shipped as separate units from matching single and double door systems.

(A direct set sidelight is a system with glass glazed to frame with no sash).

Transoms, windows and direct set sidelights are built using composite smooth or textured frames.

PRODUCT APPROVALS

For WBD (Wind Borne Debris) FL# 27399.2
For HVHZ (High Velocity Hurricane Zone) FL# 27399.3

CONFIGURATIONS

SPECIFICATIONS TRANSOMS, WINDOWS AND DIRECT SET SIDELIGHTS

SIZING

Each unit type available 8" up to the maximum size in charts A and B.

Calculating sizing:

Most impact products have approvals that require use of structural members between door units, sidelights, transoms and windows in their installation details.

To calculate the width needed for a transom window unit 'outside frame to outside frame' dimensions, add the door unit width and the side light unit(s) (if any) along with the BHI aluminum structural Mullion width of 2" per each Mullion to go between each separate unit.

Using structural 2x4 BHI aluminum mullion

Example 1; Single door unit with 2 sidelights configuration (OXO) utilizing a 2 /10 x 6/8 door with 2 sidelights 14". Add the 2/10 door unit width of 35.5" to 2 each 14" sidelight units at 15.5" each, and add 2" each for the 2 BHI aluminum structural Mullions needed for between the two sidelights = 70.5"

Using structural 1x4 BHI aluminum mullion

Example 2; Single door unit with 2 sidelights configuration (OXO) utilizing a 2 /10 x 6/8 door with 2 sidelights 14". Add the 2/10 door unit width of 35.5" to 2 each 14" sidelight units at 15.5" each, and add 1" each for the 2 BHI aluminum structural Mullions needed for between the two sidelights = 68.5"

Structural member 2x4 wood

Example 3; A single door unit with 2 sidelights configuration (OXO) utilizing a 2 /10 x 6/8 door with 2 sidelights 14". Add the 2/10 door unit width of 35.5" to 2 each 14" sidelight units at 15.5" each and add 1.5" each for the 2 2x4 Mullions needed for between the two sidelights = 69.5"

Available in 1x4, 2x4 & 2x6 sizes for 6/8 & 8/0 doors. Can be used in between transom windows or sidelights where structural beams are required by code.

All Pre-hung dimensions are based on outside to outside frame.
* 6/6 2/10 units – Undersized for replacing sliding glass doors.
Custom heights available.

Caution: When doors with sidelights are used together (except for doors using hinged sidelights) in many cases, a 2x4 or structural mullion are required to be installed between the door and sidelight frames to meet the requirements of test approvals. This will effect the overall sizing of the opening for pre-hung units.

STRUCTURAL MULLION

Available in 1x4, 2x4 & 2x6 sizes for 6/8 & 8/0 doors. Can be used between transom windows or sidelights where structural beams are required by code. FL approval #17472.2

Your Door Stylizer™

SCAN WITH YOUR
SMARTPHONE

**Create Your Dream Entryway!**

This tool allows homeowners to visualize how various ODL® Doorglass options will look in their home entryways. YOUR DOOR STYLIZER™ uses a guided design process that helps homeowners customize their entryway by replacing glass, adding glass or replacing their door. Once the user has created their dream entryway, they can save, email, share via social media or print their project to make doorglass ordering a snap.

What's Your Style?**Classic? Contemporary? Something in Between?**

Find the doorglass style that suits you and your home perfectly.

UPLOAD A PHOTO OF YOUR HOME or select a sample from our gallery. Then explore, get inspired, and create the entryway that is made for your home. You can also create an account to save your photos and favorite designs.
