20 Minute Fire Rated Exterior and Interior Doors

BHI is now Certified as a Fire Rated Door Shop!

We want to be the one-stop-shop for all your residential door needs, both inside and out. We know that one of the most important doors you could install in the home is the Fire Rated door. We've sold these type of doors for years, but the range of available designs and sizes was limited.

BHI Doors has now been certified as a Fire Rated Door Shop! This will allow us greater flexibility in how we can offer our Fire Rated Interior and Exterior doors.

The biggest benefit is that we can now prep any Plastpro IR Opaque (no glass) PF Door Slab in our stock for use as a 20 Minute Fire Rated option! This also opens up more readily available sizes and additional skin types such as Woodgrain and Rustic.

Expanded Fire Rated Offering:

- ◆ Both Interior and Exterior Door Slabs and Systems can be fire rated.
- ◆ Additional sizes available
- ◆ Any Plastpro IR Door Slab can now be prepped by BHI and used as a Fire Rated Door
- ◆ Additional Skin Textures Available

Talk with your BHI Sales Rep today for more information!
