

## Introduction & Instructions

This Price and Availability Guide is to be used together with the BHI 2023 Impact PH System Catalog. Customers can choose their desired Design and Build choice from the catalog pages, and then reference that Door's specific Unit Code in this document, in order to confirm that Door's Availability, Skin Type, Width Sizing, Testing Compliance, and Specifications. Each Unit Code Prefix from the Catalog will have multiple lines in this Guide, to show the specifics for each Skin Type as well as separate lines for the Single Unit vs Double Unit Configurations of that Design/ Build combination. Please review the bullet points below before proceeding to locate your Door's Unit Code:

\* All prices shown in this document are List Prices. Please use the discount Multiplier given to you by your sales agent to calculate your specific Net Price.

\* When quoting door Units with two *Sidelites*, please remember to add the *Sidelite* price TWICE - as they are priced individually.

\* All Units in this Price Guide are priced to include the following Standard Features:

- 4 9/16" Width Poly-fiber Jambs (Smooth Units are priced with smooth white primed Jambs/ Firgrain, Teakgrain, and Woodgrain Units are priced with textured stainable tan Jambs)
- Stainless Steel Safety Stud Hinges
- Mill Finish Aluminum Inswing, Outswing or Handicap Thresholds
- Weather-stripping (Smooth Units are priced with white/ Firgrain, Teakgrain, and Woodgrain Units are priced with bronze)
- Aluminum Astragals are included for Double Units (your choice of White or Tan Primed Finish, as well as your choice of Flat or Contoured Profiles- all at the same price)

\* Use the ADDERS at the bottom of this page to price out Wider Jambs (frames), System Height Cut Downs, or Trilennium Multipoint Installation.

The Multipoint Installation Adder includes only the mechanism, door prep, and installation price. Trilennium Compatible Lockset Trims are priced separately.

You can find the List Prices for those locksets at the beginning of the Hardware section toward the end of this Guide.

**This complete document is a guide to pricing and availability, pricing is not always exact.**

**\*\*\*Please confirm all prices by requesting a written quote from BHI.\*\*\***

**Unit pricing could vary slightly from quoted pricing based on choosing options not listed as Standard Features above (threshold type/ finish, weather-strip color, hinge type/ finish or other modifications).**

## Optional Feature Adders

Wide Jamb Adders- Smooth White				Wide Jamb Adders- Textured Woodgrain				Cut-Down Unit Height Adders
